[REDACTED]

on continuation to this complaint lodged on Pm Citizen Portal, correspondence from time to time was done by PSRA.

the highlight of this complaint was, a private school in Muslim City (Taru Jabba) known as Muslim High School was habitual in beating students as it was a clear violation of rules being set for not torturing the students. in this regard, a complaint was lodged (complaint number mentioned in subject) against the school which was dealt professionally by Kp-PSRA as can be seen through their replies in Citizen Portal.

the problem which arose now is that, the school administration intentionally blamed some families that they were responsible for lodging complaint against them by which the school administration said they very hardly came out of it but as a result, they struck off their kids from school stating this reason that they were responsible for lodging complaint against them. no one can say anything to this monopolistic institution as they would do same with each family in muslim city.

infact, the school administration and some of their teachers were responsible for mistreating the children in school and beating them but upon lodging a complaint on citizen portal, they backfired on victims instead and struck them off from school. it is their monopoly in that area as no other school is available for students and they can do anything to students and as a result, they would not be able to complain from their atrocities.

strict action against the said school is required so as to prevent them from wrongdoings for the very next time.

**address:** Muslim High School, Tarnab Faram, Main G.T Road, Taru Jabba
